SUMMARY

Middle+ Fullstack Developer with 6 years of professional experience delivering enterprise and cross-platform systems across Japanese education, ERP accounting, KPI platforms, video conferencing, and mobile applications. Strong in TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL, and system design. Currently working at VIETIS on school-management/OCR and ERP accounting products, with prior experience supporting Viettel and Naver and mentoring 8+ engineers.

WORK EXPERIENCE

Fullstack Developer | VIETIS | Mar 2026 – Present

Japanese School Management & OCR Assessment Platform

• **Student & Teacher Management:** Developed features for managing students and teachers in a Japanese school-management system.
• **OCR Assessment:** Fixed and improved OCR-based exam scoring workflows, addressing scan-processing and assessment-result issues.
• **Identity & Access:** Investigated and resolved Keycloak-related authentication and authorization issues.
• **Tech Stack:** Next.js, React, TypeScript, NestJS, OCR, Keycloak.

Enterprise ERP Accounting & Reporting Platform

• **Reporting:** Developed report features aligned with accounting business rules and enterprise workflows.
• **File Generation:** Implemented export and file-generation flows based on operational data and business requirements.
• **Fullstack Delivery:** Built TanStack React frontend features connected to the C# backend.
• **Tech Stack:** TanStack React, TypeScript, C#.

Software Engineer / Team Leader Blameo (Outsourcing for Viettel Group) | Hanoi | Jun 2022 – Present

Engineering Leadership & Mentorship

• **Hiring & Growth:** Scaled the engineering department by designing a rigorous technical interview framework for Frontend and Mobile roles.
• **Team Development:** Established a structured mentorship program for interns, resulting in improved team-wide code quality and high-performance standards.
• **Leadership:** Led and mentored a cross-functional team of 8 engineers, aligning technical roadmaps with project milestones.

Backend Architecture & System Performance

• **System Refactoring**: Refactored legacy Node.js services reducing API latency by 50% and improving system reliability during peak loads.

• **Full-stack Development:** Architected a KPI tracking platform and Viettel Cloud features using React, TypeScript, and Node.js.
• **Technical Standards:** Established initial project structures and enforced high-level coding standards such as ESLint and Git flow.

Software Engineer CMC Global | Hanoi | Oct 2021 – Jun 2022
• **Cross-Platform Development:** Engineered a unified video conference solution across Web (Vue.js), Desktop (Electron.js), and Mobile (React Native) platforms.
• **Real-Time Communication (RTC):** Researched and implemented media synchronization algorithms to stabilize video quality and connection across different devices and bandwidths.
• **Code Quality:** Actively participated in code reviews and architectural discussions to ensure clean code and minimize production bugs.

Frontend Developer NTQ Solution | Hanoi | Oct 2020 – Oct 2021
• **Low-Code Platform Development:** Built core features for a mobile app generation platform using React Native, focusing on automation and dynamic functionality.
• **E-Learning Application:** Developed an exam and e-learning mobile app with a focus on intuitive user interfaces and smooth interactive flows.

TITLES AND AWARDS

May 2023 Employee of the Year – Blameo Company

SKILLS

• **Engineering Leadership:** System Architecture, Team Mentoring, Technical Interviewing, Agile/Scrum, CI/CD Pipeline Design.
• **Fullstack Development: TypeScript, JavaScript, React, Next.js, Node.js (NestJS/Express), React Native, Electron.js, Vue.js.**
• **Backend & Data: PostgreSQL, SQLite, Realm DB, Keycloak, OCR assessment workflows.**
• **Infrastructure & DevOps: Docker, Jenkins, GitLab CI/CD, Nginx, AWS, Linux/Ubuntu.**
